SUMMARY

Associate Software Engineer skilled in React.JS and Node.JS, dedicated to creating and optimizing interactive, user-friendly and feature-rich web applications. Exposure to Front-end & Back-end web development, UI/UX and Progressive Web Application (PWA) development. Believe that continuous learning and belief are the key factors for achieving personal and professional success.

TECHNICAL SKILLS

- React.JS, Node.JS, JavaScript, HTML, CSS, Bootstrap, Material UI
- Python, Django, Highcharts, Chart.JS, PostgreSQL

WORK EXPERIENCE

- **Associate Software Engineer**
  Caparizon Software Pvt. Ltd., Kochi
  Role – Full Stack Developer (React.js and Node.js)
  August 2020 – Present

PROJECT EXPERIENCE

- **Data visualization**
  Front-end Developer for building visualizations and analytical dashboard using React and HighCharts. Was also responsible for building middleware using Express.js to power the dashboard with data.

- **Ticket Booking System**
  Full Stack Developer for building user interface and APIs using React.js and Express.js for a travel agency from scratch. Used PostgreSQL as the database management system.

- **PoC Project for Insurance Company**
  Full Stack Developer responsible for developing complete PoC project using React.js and Express.js for an insurance company.

ACADEMIC PROJECTS

- **Smart Shopping Search**
  This is an e-commerce project done using Django. This is a web application in which you can search for a product without typing the keyword, instead you can use the audio recognition and object detection features to find a product.

- **URL Shortener**
  Web application which converts a regular URL to short URL, thus make sharing long links more manageable. This project was done using Django 3.0.
